Bishop Vaughan Catholic School

"I have come that they may have life, and have it to the full." "Mylfi a ddeuthum i'f y coent fywyd, ac y coent ef i'r eithaf"

Case Study	Bishop Vaughan Catholic School
Address	Mynydd Garnllwyd Road, Morrison, Swansea, SA6 7QG
Number of students aged 16 – 18 2016/17	

Case Study: Continuous Professional Development

Teacher – Clare Power – A Level Mathematics and Further Mathematics

Current Teaching – FP1 and FP2, S1 and S2, and C1, 2, 3 and 4

CPD attended:

Teaching Advanced Topics – South Wales 2015/16

Reasons for participating in Further Maths Continuous Professional Development:

To become more confident in teaching Further Pure.
The school is changing from AQA to WJEC next year but our present Further Maths students have already changed. As there are no text books for WJEC it is hard to know that you are including everything that needs to be taught.

Experience of the Further Mathematics Professional Development?

I really enjoyed the course. I am teaching FP2 now and I am using the order of some of the topics that were used in the course as a guide. I feel much more confident teaching FP2 this current year on WJEC. I am also able to help Y13 AQA this year. The course met my expectations and I was very satisfied with the delivery of the sessions, the resources provided and the standard of teaching. The course was good for meeting other teachers and certainly got my brain working on the more difficult Further Maths topics. I would recommend the course to others and I am planning on participating with “Teaching FP1 Mathematics with confidence course” this academic year.
