Further Mathematics Support Programme Wales

Comments from students and teachers who have accessed our support:

Tuition

- As a school we are very grateful to the FMSPW for the work they have been doing with our students in enabling them to study maths at a further level. The teaching, support and revision work have been very useful and proved successful with an A grade in FP1, *Head of Mathematics, Gowerton Comprehensive.*

Professional Learning

- Desmos PL: Fantastic, very informative. Pace about right. I really liked the hands-on nature of it too. Excellent! Great insight into the use of DESMOS personally and in the classroom. *Jenitta Sage, Cowbridge School*
- We have had bespoke training on topics that we have requested and we have been able to train up all our staff. *Emma Pugh Porthcawl Comprehensive School*

Resources

- The SoW reflects the experience of the contributors and also provides resources to allow teachers to further their own knowledge and understanding. *Syra Saddique, WJEC*
- [The Scheme of Work] is fantastic, please accept my thanks on behalf of myself and my department for all of the hard work and support provided so far! Can I also just take the opportunity to continue to thank you and your team for all of the resources and efforts made. It has been the foundation for us in implementing this new syllabus! *Isobella Birch, Hawarden High School*
- [The Practice Papers] are great and have saved me a lot of time, as I was going to produce my own. Thanks again for all your work in producing these resources for us. *Judith Maddison, Ysgol Bro Gwaun*
- [The flipped videos] resources were invaluable over lockdown, pupils benefited from having access to these quality resources to support the online teaching. *Nia Jones, Head of Mathematics Bro Teifi*
- A superb collection of [Desmos] activities and particularly useful to me for my first time helping to teach it, and particularly in this year of blended learning. *Mr. Barry Hardiman, Llandrindod High School*

Enrichment

- I wanted to say thank you very much for all the help and support that you provided through the FMSPW MAT sessions, I sat the MAT test today and the sessions you provided helped me greatly in preparing for the test.
- Thank you so much for the fantastic STEP sessions, I've really found the whole experience incredibly useful, and really feel like I'm starting to click with the questions! I'm very pleased that I've received all 5 of my offers, including one to read mathematics at Homerton college, Cambridge. I'd love to extend a thanks to everyone who's helped with these sessions, as I really can't stress how fantastic every single session has been.
- Primary Pilots: it was amazing and fun.
- I just wanted to say thank you for the brilliant [Careers Talks] that I for kindly presented to our students during these challenging times. It really made the pupils think about why Maths was important and how their Maths lessons can relate to so many different careers. The pupils have continued to talk about the sessions after the events which is a positive sign. Thanks again. *Emma Topliss Learning Manager - Mathematics Department, Ysgol Rhosnesni High School, Wrexham*
- Masterclasses: Seeing areas and ways where maths can be used, which leads to interesting and unique types of maths I've never encountered before.
